Dear Parents and Teachers,

I hope your kids enjoy completing the following worksheets! They are specifically formulated to go with the *Kinders Can! READ and WRITE!* program, but can be used on their own as well. There are five sheets for every letter of the alphabet -- one sheet for tracing the letter, one sheet for writing the letter, one sheet for identifying the letter, and two sheets for finding words that begin with the letter.

As you work with your kids on letters and sounds, don't forget to teach them how to use those letters and sounds to read and write all sorts of words! After all, that is why we teach our kids letters and sounds in the first place!

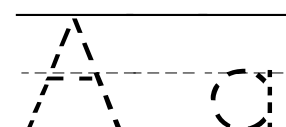

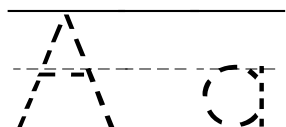

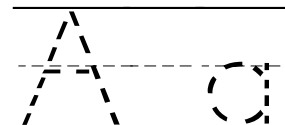

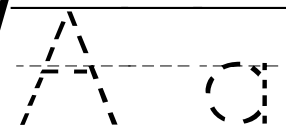

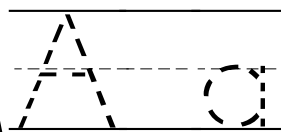

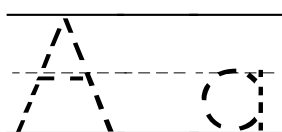

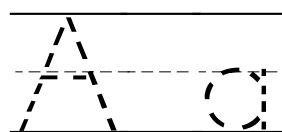

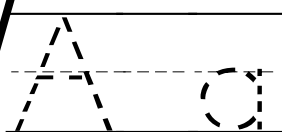

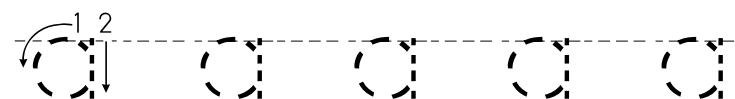

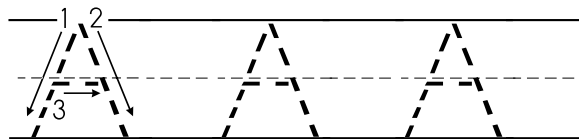

All the best and much success,

Katy Huller
